Note: Mixing directions can change depending on the price and quality of local available raw materials.

- To achieve good results, follow these mixing instructions exactly! Do not alter or change without consult.
- Always make sure all calves have access to ad libitum (chopped) forages/silages.
- Make sure calves always have access to fresh, cool and clean water.
- The amount of feed for a calf is depending on age. Provide ad libitum during the milk phase.
- At weaning, intake should be >1.5 kg/calf/d
- After weaning, intake should be 3 kg/calf/d
- Between 6 and 8 months of age, switch to Dairy Meal
- For more advice, ask the local Koudijs representative.
