Magnesium tot	g	3,0	3,6
Vit A add (30672a)	IU/kg	8750,0	8750,0
Vit D3 add (3a671)	IU/kg	2750,0	2750,0
Cu	mg/kg	20,2	21,7

Important

Note: Mixing directions can change depending on the price and quality of local available raw materials.

- To achieve good results, follow these mixing instructions exactly! Do not alter or change without consult.
- Always make sure all cows have access to ad libitum forages/silages.
- Make sure cows always have access to fresh, cool and clean water.
- The amount of feed for a cow is depending on production level. HP Dairy meal is for cows producing >20L/day.
- The Dairy meal intake is 3 kg up to 6L milk production/head/day.
Dairy meal intake > 6L of milk production/head/day is 1 kg dairy meal per 2L milk production, up to a max of 12 kg intake/day.
- Dry cows should get 2-3kg/day next to ad libitum low/medium fibre rich forages
- If needed, provide mycotoxin binder, preferably Mycoguard Focus
- For more advice, ask ask the local Koudijs representative.
